1.0 Identification of the Substance/Mixture and of the Company/Undertaking

Product Name: Sperm CryoProtec™
Product Catalogue No: SCP-020

Sperm CryoProtec™ is a sterile salt solution containing glycerol, optimised for freezing human sperm. 20 mL quantities in borosilicate glass bottles, with silicone stoppers and tamper-evident seals.

2.0 Hazards Identification

Physical hazards: None established
Human health effects and symptoms of acute exposure: None established
Human health effects and chronic exposure: None established

3.0 Composition/Information on Ingredients

The product consists of a physiological salt solution.

4.0 First-Aid Measures

If inhaled: Remove from exposure. Transfer person to fresh air. If discomfort persists, obtain medical attention.
In case of skin contact: Wash off with an abundance of water and remove contaminated clothing.
In case of eye contact: After initial flushing with physiological saline, remove any contact lenses. Flush thoroughly with physiological saline for 15 minutes. If discomfort persists, obtain medical attention.
If swallowed: Rinse mouth with water and give water to drink. Never give water to unconscious person. Obtain medical attention if feeling unwell.

5.0 Fire-Fighting Measures

Suitable extinguishing media: Unlikely to burn.
Special fire or explosion hazards: Glycerol is combustible; vapour heavier than air, forms explosive mixture with air on intense heating.
Products of combustion: Acrolein
Special exposure hazards: Do not stay in danger zone without suitable protective clothing and self-contained breathing apparatus.
Protective equipment for fire fighters: Use correct equipment applicable to primary cause of fire.

6.0 Accidental Release Measures

Personal precautions: Do not inhale vapours/aerosols.
Environmental precautions: Do not allow to enter sewage system.
Clean-Up methods: Wipe up using appropriate absorbent material and dispose with normal laboratory refuse, according to community, state or federal regulations.

7.0 Handling and Storage

Incompatible materials: Not applicable.
Storage conditions: Store at +10° to +22°C or if opened at +2° to +8°C.
Handling recommendation: Use care in handling.
Handling precautions: Avoid inhaling, ingestion, and contact with eyes and skin.
8.0 Exposure Controls/Personal Protection
Exposure limit: Not established.
Ventilation requirements: Normal ventilation.
Respiratory protection: Required if vapours/aerosols generated.
Eye protection: Use safety goggles.
Skin protection: Use protection gloves.

9.0 Physical and Chemical Properties
Appearance: Transparent yellowish liquid
Odour: odourless
Acid/Base: pH 7.3-8.5
Vapour Pressure: Not applicable.
Freezing/Melting Point: approx -10°C
Boiling Point: Approx. 130°C
Flash Point: 180°C

10.0 Stability and Reactivity
Stability under normal conditions: Stable if store as recommended.
Explosive properties: Explosive with air in vaporous/gaseous state when heated.
Hazardous decomposition: Not applicable.
Hazardous polymerization: Not available.
Incompatible materials to avoid: Strong oxidising agents.

11.0 Toxicological Information
Product is essentially inert. No toxic or ill effects under normal operating conditions.

12.0 Ecological Information
No known adverse ecological effects.

13.0 Disposal Considerations
According to applicable regulations for glycerol according to local community, state or federal regulations. The glass bottles and paper cartons can be recycled without adverse problems in the recycling system for glass and paper, respectively.

14.0 Transport Information

15.0 Regulatory Information
See hazards identification.
United States: 510 (k) K984172
EU Cert No: 241568-2017-CE-NOR-NA-PS
